

Challenge Question about Farming In India

What is the type of farming in India?

Farming can be classified according to what it grows and how it is grown:

Arable: Crops

Pastoral: Animals

Mixed: Crops and animals

Subsistence: Grown just for the farmer and his family

Commercial: Grown to sell

Intensive: High inputs of labour or capital usually small

Extensive: Low inputs of labour or capital

Sedentary: Permanently in one place

Nomadic: The farmers move around to find new areas to farm.

If you are planning for farming, then [model tractor](#) always play an important role in real-life, day-to-day farming.

Young farmers believe in applying modern techniques for farming. Though the tractor reduces manpower, less time is required and so on this is some advantage of using modern tractor techniques.

List of best Tractor Models For Farming:

- 1) [Preet Tractors](#)
- 2) [Mahindra Tractor Yuvo](#)
- 3) [Sonalika Tractor Models](#)
- 4) [New Holland Tractor Models](#)
- 5) [VST Tractor Models](#)
- 6) [Tafe Tractor Models](#)
- 7) [Escorts Tractors](#)
- 8) [Mahindra Arjun 555](#)
- 9) [Massey Ferguson 6028](#)
- 10) [John Deere Tractor Models](#)

What is the difference between simple farm tools and farm machinery?

The main difference between simple farm tools and farm machinery are :

Simple Farm Tools Or [Tractor Agricultural Implements](#):

During agricultural production farmers carry out many farm operations or activities such as land clearing, felling of trees, digging, planting seeds, harvesting and processing of crops. The tools that are used by the farmer to carry out these activities are called farm tools or farm equipment. They include the cutlass, rake, file, sickle, spade, shovel, hoe, go-to-hell, axe, pruning saw and many others.

Farm Machinery:

Agricultural machinery is machinery used in farming or other agriculture. There are many types of such [tractors](#), balers, combines, plows, mowers, planters, and sprayers. Diverse arrays of equipment are used in both organic and non-organic farming.

What is the profit difference between a traditional farm and a modern farm?

Difference between Traditional and Modern methods of Farming are:

Traditional farming :

1. Uses manure & compost
2. More farm labourers & no machines
3. Depended on seasonal rainfall
4. Animals are used to plough the field
5. Production is less but the crops are of high quality

Modern Farming :

1. Uses chemical fertilizers
2. Less farm labourers & more machines
3. Well occupied irrigation system and So not dependent on seasonal rainfall.
4. Tractors used for ploughing the field
5. Production is more but the crops are of less quality.

In Modern Farming, [model tractor](#) always play an important role in real-life, day-to-day farming.

Young farmers believe to applying modern techniques for farming. Though the tractor reduce man power, less time required and so on this is some advantage of using modern tractor techniques.

List of best Tractor Models For Farming:

- 1) [Eicher Tractor Models](#)
- 2) [Mahindra Tractor 575](#)
- 3) [Same Deutz Fahr Tractors](#)
- 4) [VST Shakti Tractor](#)

- 5) [Mahindra Tractor Models](#)
- 6) [John Deere Tractor Models](#)

What is farm machinery?

Farm machinery, mechanical devices, including tractors and implements, used in farming to save labour. Farm machines include a great variety of devices with a wide range of complexity: from simple hand-held implements used since prehistoric times to the complex harvesters of modern mechanized agriculture.

In Modern Farming, [model tractor](#) always play an important role in real-life, day-to-day farming.

Young farmers believe to applying modern techniques for farming. Though the tractor reduce man power, less time required and so on this is some advantage of using modern tractor techniques.

List of best Tractor Models For Farming:

- 1) [VST Tractor](#)
- 2) [Deutz Fahr Tractor](#)
- 3) [Massey Ferguson Tractor Models](#)
- 4) [Force Balwan](#)

List of Farm Machinery:

- 1) [Tractor Land Leveller](#)
- 2) [Tractor Sugar Cane Loader](#)
- 3) [Tractor Gyrovator](#)
- 4) [Tractor Laser Land Leveler](#)

What is organic farming?

Organic farming is a technique, which involves cultivation of plants and rearing of animals in natural ways. This process involves the use of biological materials, avoiding synthetic substances to maintain soil fertility and ecological balance thereby minimizing pollution and wastage.

In Organic Farming, [model tractor](#) always play an important role in real-life, day-to-day farming.

Young farmers believe to applying modern techniques for farming. Though the tractor reduce man power, less time required and so on this is some advantage of using modern tractor techniques.

List of best Tractor Models For Farming:

- 1) [Preet Tractors](#)

- 2) [Mahindra Tractor Yuvo](#)
- 3) [Sonalika Tractor Models](#)
- 4) [New Holland Tractor Models](#)
- 5) [VST Tractor Models](#)
